

Keren Schoss

Frontend Developer

📍 Tel-Aviv, Israel 📞 +972-54-391-1500 ✉ kerenschoss369@gmail.com [in Keren Schoss](#) [kerenschoss369](#)

About Me

- **Technical Expertise:**
Frontend Developer with experience building, maintaining, and enhancing production Angular applications in enterprise environments. Skilled in Angular, TypeScript, RxJS, SCSS, Nx, and REST API integration.
- **Visual & User Experience:**
I naturally notice the small details that elevate the user experience, combining my professional experience in photography and design with a strong visual eye for responsive UI, layout, aesthetics, and pixel-perfect implementation.
- **Professional Approach:**
I hold myself to a high standard and care about delivering polished, well-executed solutions. Ambitious, highly collaborative, and known for taking ownership.

Professional Experience

Frontend Developer – Abra: EL-AL Airlines Web Application (2025-2026)

- Develop and maintain production features for EL AL's large-scale web platform using **Angular, TypeScript, RxJS, SCSS, and Nx**.
- Deliver frontend features and bug fixes across complex booking, passenger management, and ancillary service flows.
- Investigate and resolve production issues involving reactive forms, **APIs**, application state, **responsive behavior**, and cross-component interactions.
- Collaborate with backend, product, design, and QA teams to deliver reliable, reusable, and pixel-accurate user experiences.

Education

B.Sc. in Computer Science (Graduated Oct 2024), The Academic College of Tel Aviv- Yaffo.

Skills

- **Frontend Development:** Angular, React, TypeScript, JavaScript, RxJS, HTML5, SCSS/CSS, Responsive Web Design, Component-Based Architecture, Pixel-Perfect Implementation.
- **Backend & API Integration:** REST APIs, FastAPI, MongoDB, Client-Server Communication, Postman.
- **AI-Assisted Development:** Cursor, Prompt Engineering, AI-Assisted Development Workflows, AI Code Review & Validation, Test Case Generation.
- **Developer Tools:** Git, Nx, Bitbucket, WebStorm, Chrome DevTools, Jira, Confluence.
- **Programming Languages:** Python, Go, C#, C++, C.

Languages

Hebrew (Native), **English** (Fluent)

Military Service

SOC Team Leader & IT – IDF Manpower Directorate (2018–2020)

Began as a network administrator and was later promoted to lead the IDF Manpower Directorate's first SOC team.

Extra- Curricular Activities

- **Professional Fashion Photographer (2014 - 2020):** Published work in global fashion magazines, with expertise in visual design, composition, Photoshop, and creative direction. Designed and built a personal portfolio website using Wix.
- **Alpha - Research Program in Science | Tel-Aviv University (2015 - 2018):** Conducted particle physics research on the ATLAS detector (LHC). Worked with big data and **C++** to analyse invariant mass distribution of photon pairs for Higgs boson evidence
